## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 recites a very specific method of displaying graphically price activity of a financial instrument. US Patent 6,272,474 (Garcia), figure 1 shows the closest prior art, which is common method of tracking financial activity. The claim further recites that two statistical ranges, which define an extreme tail, determine the geometric figures that graphically show the activity. The prior art does not show or teach these limitations.

Claims 2-23 are dependent upon claim 1.

Foreign reference Nakamura and non-patent literature reference Aan are cited to further show what is known in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
